LC200 Under Body Protection FACT SHEET

Part Code LC200 3-Piece UBProtection

To suit 200 Series Landcruiser

Construction CAD designed - CNC cut, 3 piece to offer full protection to radiator, sump, and transmission. Made from 3mm manganese steel which is renowned for its high impact strength, light weight and resistance to abrasion. This is not just a piece of metal folded up in a shed, this has been fully engineered to keep weight down and strength to a maximum. Total weight 30kg.

Surface Powder coat textured black
