

PREDATOR FRONT BAR FACT SHEET

Part Code Predator Bar
To suit Y62 Patrol STL, Ti, TiL – S1, 2, 3, 4*

Construction

- Steel bracketry and winch cradle.
- Aluminum 3 piece fascia

Surface Satin black or textured black finish

ADR Meets and complies with ADR

Light weight in design, aggressive approach angle, the Predator Bar is the ultimate bumper replacement for your Y62 whether you want to look good picking the kids up or out on the tracks.

Installation: Allow 5 hours. Sensor holes to be drilled by installer. See installation instructions for detail on position and hole size. OEM Radar bracket will need modification by installer. Note, recovery points are not included in standard package.

Model	Series 1	Series 2	Series 3	Series 4
STL	4 sensors 22x20mm
